PROFESSIONAL SUMMARY

BCA graduate (2025) with hands-on experience in web development, cloud technologies, and Python programming, backed by a 3-month internship at Scope Tech Software Solutions. Skilled in building responsive web applications using HTML, CSS, JavaScript, and Python, with exposure to AWS cloud services including EC2, S3, Lambda, RDS, and SNS. Proficient in version control using Git and GitHub, with experience integrating REST APIs and building location-based services. Seeking a cloud engineering role to contribute technical skills and grow within a professional cloud environment.

TECHNICAL SKILLS

AWS Services:	EC2, S3, Lambda, RDS, SNS, CloudWatch, IAM
Programming:	Python, JavaScript, SQL
Web:	HTML5, CSS3, JavaScript (ES6+), REST APIs
DevOps / VCS:	Git, GitHub, Linux
Tools:	VS Code, PyCharm, Python IDE, Notepad++
Databases:	SQL, MySQL
Languages:	English, Tamil

INTERNSHIP

Cloud Computing Intern

3 Months

Scope Tech Software Solutions

- Gained hands-on exposure to AWS cloud services including EC2, S3, Lambda, RDS, and SNS in a professional environment.
- Assisted in deploying and monitoring cloud infrastructure, ensuring system availability and performance.
- Worked alongside senior engineers to implement security best practices and data management workflows.
- Contributed to automation scripts using Python to support cloud operations and routine tasks.

EDUCATION

Bachelor of Computer Applications (BCA)

2022 – 2025

The American College, Madurai

CGPA: 8.1 | 75.4%

Higher Secondary Certificate (HSC)

2021 – 2022

Annamalaiyaar Matric Hr. Sec. School

70.33%

Secondary School Leaving Certificate (SSLC)

2019 – 2020

PROJECTS

EV Charging Station Locator

2024 – 2025

Final Year Project

- Designed and developed a location-based web application to help EV users find nearby charging stations.
- Integrated mapping and geolocation APIs for real-time navigation and station discovery.
- Built an interactive UI focused on accessibility and ease of use.

Weather Application

2024

Personal Project

- Consumed a third-party weather REST API to display real-time temperature, conditions, and location-based updates.
- Developed with HTML, CSS, and JavaScript with a clean, responsive UI.

To-Do List Application

2023

Personal Project

- Built a responsive task management app using HTML, CSS, and JavaScript.
- Implemented local storage for data persistence across browser sessions with full CRUD functionality.

Calculator Application

2023

Personal Project

- Created an interactive arithmetic calculator with real-time input handling and a user-friendly interface.
